Dear Professor _____,

I hope you are doing well. I have received an admission offer for Fall26 at UAlbany in the CS Ph.D. program and am writing to express my interest in joining your research group.

I have research experience in the field of computer vision and machine learning, and have been particularly drawn to your lab for the recent works on 3D indoor scene reconstruction. I have carefully read the Room2XR and CIS2VR paper, where deep learning frameworks were designed for transforming RGB-D scans into interactive VR environments, and have ideas on building upon them. I also found your works on alleviating phantom pain inspiring. Given the alignment between my research interest and your lab's current directions, I believe my expertise would allow me to contribute meaningfully to your ongoing projects.

I have attached my CV and other documents for your reference and would appreciate a discussion with you regarding opportunities in your lab.

Respectfully yours,
Mahedi Kamal
Ph.D. Applicant
